

A letter to the lesson 5.

Dear Ben!

Introduction. I am glad to hear from you again. I agree with you that nowadays computers are necessary for everybody. It's very convenient to chat with friends **on** the Internet.

Answers the questions: 1. I use a computer to find out information for my studies or make a report on different subjects. Moreover, I have penpals (friends) and chat with them through the Internet. Also, when I have free time I watch movies and listen to music on the Internet.

2. I spent about 2 hours working on my computer. I can find useful information for my report. Sometimes it helps me to do my homework. But if I stay in front of the screen more than 2 hours I have pain in the eyes. I think it's not very healthy to use a computer for a long time.

3. Unfortunately, I am very busy now preparing for my exams. But I have a little free time at the weekend. This happy moments I usually I relax, meet my friends and go to the country.

Conclusion. I'd better go now as I have to do my homework (Actually, I've got to go now. It's time for my favourite TV show). Write back soon (Hope to hear from you soon).

Best wishes,

Egor.
